Mojavewifi.com Billing Procedure

On the date of installation, Mojavewifi.com charges one full month in advance for internet service. Terms of Service for Internet Access Service

The Terms of Service in this Agreement (the "Agreement") are entered into by and between the subscriber ("you," "your" or "Subscriber") and Mojavewifi.com LLC ("Mojavewifi.com LLC," "us" or "we" or "our"). You are deemed to have accepted this Agreement upon the earliest of: (a) your submission of an order; (b) your accepting the terms and conditions electronically during the ordering process; or (c) your use of the Service (as defined herein). This Agreement includes the terms set forth herein, the Acceptable Use Policy, the Privacy Policy, and all other materials specifically referenced in this Agreement, all of which are incorporated by reference herein. This Agreement sets forth the terms and conditions under which you agree to use the Service.

SERVICE: Mojavewifi.com LLC will provide you with dedicated access to the Internet, subject to the terms and conditions set forth herein (the "Service"). Service may be provided by means of a Digital Subscriber Line ("DSL") connection provisioned for your use by us, or Dial-up Modem Access ("Dial-up"), or Fixed Wireless Broadband ("FWA"), or Hotspot Wireless Access ("Hotspot").

All products and Service is provided on a best effort basis. Subscriber acknowledges there is no guarantee of Service availability, or suitability for any purpose. Subscriber acknowledges that any and all of our Services offer no Service level agreement whatsoever implied or expressed. Speeds on the various plans will vary depending on many factors, including but not limited to distance from the local Service provider's central office, internet congestion, upload and download speed of your destination server, dial-up phone number availability at any given time, local wireless network congestion and availability, radio frequency link quality, local and remote radio frequency interference, weather conditions as applicable and internet backbone connection availability. Some types of the Service are provided in conjunction with a circuit provider, which may be your local phone company. The circuit provider retains the right to cancel the Service before or after installation at their sole discretion at any time. Although DSL pre-qualification provides a good measure of certainty regarding Service availability, it is not a guarantee of Service. Although a On-Site Evaluation for FWA or Hotspot access provides a good measure of certainty regarding Service availability, it is not a guarantee of Service. We recommend waiting until Service is installed and tested for a few weeks before assuming that Service will be available and of good quality.

PROVIDERS: The application of certain terms herein vary depending on whether the phone line or circuit for a Subscriber is AT&T (an "AT&T Subscriber"), Verizon (a "Verizon Subscriber"), or Covad (a "Covad Subscriber"). Mojavewifi.com LLC breaks out each phone line or circuit for a Subscriber by Networks. A Subscriber in "Network 1" or "Network 2" is an AT&T Subscriber, a Subscriber in "Network 3" is a Verizon Subscriber, and a Subscriber in "Network 4" is a Covad Subscriber, and a Subscriber in "Network 6" is a Qwest Subscriber, and a Subscriber in "Network 8" is a Verizon Subscriber. Subscriber acknowledges that Services are provided in the footprint of these local carriers and may be provisioned by personnel representing these carriers but are not being Serviced and maintained by these carriers.

Technical Support, Billing questions and any other account support communication must be directed to Mojavewifi.com and not the local exchange carriers.

SUBSCRIBER INFORMATION: You acknowledge that you are eighteen (18) years of age or older, and you agree that you have the legal authority to enter into this Agreement and affirm that the information you supply to us is correct and complete. You understand that Mojavewifi.com LLC relies on the information you supply and that providing false or incorrect information may result in Service delays or the suspension or termination of your Service. You agree to promptly notify Mojavewifi.com LLC whenever your personal or billing information changes, including without limitation, your name, address, telephone number, and credit card number and expiration date, if applicable.

SOFTWARE: In connection with our provision of the Service, we may provide to you, via download, CD, other media, or other delivery method, the use of certain software which is owned by Mojavewifi.com LLC or its third party licensor's, providers and suppliers, and which may be provided free or for a fee, including client and/or network security software (the "Software"). We reserve the right to update or change the Software from time to time and you agree to cooperate in performing such steps as may be necessary to install any updates or upgrades to the Software. You may use the Software only as part of or for use with the Service and for no other purpose. The Software may be accompanied by an end user license agreement from Mojavewifi.com LLC or a third party. Your use of the Software is governed by the terms of that license agreement and by this Agreement, where applicable. You may not install or use any Software that is accompanied by or includes an end user license agreement unless you first agree to the terms and conditions of the end user license agreement

TERM: This Agreement is effective upon Subscriber's acceptance as provided above and shall continue until terminated by Subscriber or Mojavewifi.com LLC pursuant to this Agreement. Each Monthly Subscriber for any Service, is on automatically renewing monthly terms beginning on the first day of each calendar month (or, for the first monthly term, the full or partial month beginning with Subscriber's acceptance as provided above). An Annual Subscriber is on a twelve (12) month term beginning on the day such Subscriber accepts the terms of this Agreement as provided above. An Annual Subscriber who upgrades or downgrades to a "Month to Month" rate during their initial twelve (12) month Term pursuant to section 4, shall continue to be on the same twelve (12) month Term. An Annual Subscriber who upgrades or downgrades to a "1 Year Contract" Plan during their initial twelve (12) month Term pursuant to section 4, shall begin a new initial twelve (12) month Term on the date of such upgrade. Following the initial twelve (12) month Term, an Annual Subscriber will automatically become a Monthly Subscriber.

SPEED OF SERVICE: Speed rate depends upon the Subscriber's DSL Plan selection and line capabilities (e.g., loop length, line condition, gauge of copper wire and Phone Company provisioning). The maximum speed for ADSL is stated under optimal conditions and may vary significantly. Speeds are subject to a 20% overhead (e.g., 768k stated speed = 768k times 80% throughput = 614k actual speed). Minimum speeds are offered for an AT&T Subscriber and are based on the package's listed minimum speed minus 20% overhead (e.g., 384-1500k/128-256k stated speed = 384k times 80% throughput = 307k actual speed.) Actual speeds that fit the 80% of the minimum throughput criteria are considered acceptable. A Verizon, Covad or Qwest Subscriber has no minimum speeds. All Services are provided on an AS IS basis and throughput speeds are not guaranteed. Subscriber acknowledges no Service Level Agreement is offered, expressed, or implied under any circumstance or provided for any of our Services, implied or expressed. Fixed Wireless Broadband products do not guarantee or intend to imply or designate any speed quantity to the Service other than is faster than Dial-up Service. Your actual experience may vary.

EASY ISP CHANGE FOR AT&T SUBSCRIBERS: Completing the AT&T ISP change form authorizes AT&T to terminate DSL Service with your current Internet Service provider and further authorizes AT&T to establish DSL Service with Mojavewifi.com LLC. Opting to use the ISP change process will reduce or eliminate the amount of downtime that you may experience when switching from your current Internet Service provider to Mojavewifi.com LLC. Most Subscribers experience less than twenty four (24) hours of downtime during this process but overall downtime can be between zero (0) and four (4) business days. You are responsible, and you hold Mojavewifi.com LLC harmless, for any and all early termination, cancellation or other fees, charges or obligations resulting from your change of Internet Service provider.

TERMINATION BY SUBSCRIBER: Subscriber may terminate this Agreement at any time for any reason by providing Mojavewifi.com LLC with a thirty (30) day written notice in the form of a valid written termination request and paying all fees and other charges accrued and otherwise payable under the terms of this Agreement and surrendering or paying Equipment fees for leased, loaned or rented DSL and or Fixed Wireless Broadband Equipment that is not returned to Mojavewifi.com LLC in the time periods specified in this agreement. Such thirty (30) day period begins on the date on which Mojavewifi.com LLC receives Subscriber's valid written termination request. A Monthly Subscriber's termination will be effective on the later of (a) the end of last day of the calendar month during which such thirty (30) day period ends (e.g., a valid written termination request received by Mojavewifi.com LLC any time during January will result in termination effective at the end of February) or (b) the end of last day of the calendar month requested by the Monthly Subscriber. An Annual Subscriber's termination, if received by Mojavewifi.com LLC at least thirty (30) days prior to the end of their twelve (12) month term, will be effective at the end of such twelve (12) month term, unless such Annual Subscriber requests an earlier date. Notwithstanding the foregoing provisions of this section, if Mojavewifi.com LLC receives a written termination request from a Subscriber, Mojavewifi.com LLC may, in its sole discretion, terminate this Agreement on a date earlier than the date otherwise prescribed by this section. For DSL Subscribers subject to a early termination fee ("ETF") where the service was requested to be canceled prior to the expiration of the term, Annual Subscriber's twelve (12) month term, such Annual Subscriber must pay, in addition to all fees and other charges accrued or otherwise payable under the terms of this Agreement, an early termination fee in the amount of one hundred, thirty-five dollars (\$135.00) for Business Class Service or seventy dollars (\$70.00) for residential service (classes described other than Business Class during the original or subsequent Service order). All Fixed Wireless Broadband customers are month to month and accrue no ETF for cancellation of their service. In the event an Annual Subscriber terminates this Agreement prior to the end of their twelve (12) month term because of a Service-related problem not caused by the Subscriber that Mojavewifi.com LLC has failed to cure after what Mojavewifi.com LLC determines in its sole discretion to be a reasonable amount of time based on the circumstances, the Subscriber is entitled to a waiver of the Early Termination Fee. For such waiver to apply, the reason for the waiver stated above must have occurred before termination and the Subscriber must report such reason for termination to Mojavewifi.com LLC in its valid written termination request. Mojavewifi.com LLC must in turn be given the opportunity to resolve the problem and the Subscriber must be willing to troubleshoot with Mojavewifi.com LLC as well as be available for and authorize the dispatch of a network provider technician. Mojavewifi.com LLC does not monitor Subscriber accounts for activity, and absence of activity or cancellation of a Subscriber's telephone number will never constitute a termination request. A written termination request is valid only if it includes your DSL Service phone number if applicable, billing and physical address, Subscribers full name, and date you wish the Service to be canceled and the reason for canceling and is submitted via email to Service@mojavewifi.com or US postal Service mail at

Mojavewifi.com
P.O. Box 1921

For a termination in accordance with this paragraph, Subscriber remains liable for all unpaid fees and other charges accrued or otherwise payable under the terms of this Agreement, including without limitation the Early Termination Fee and Equipment charges set forth herein, if applicable.

TERMINATED SUBSCRIBER: Mojavewifi.com LLC, in its sole discretion may refuse to accept a Subscriber's application for renewal following a termination or suspension of such Subscriber's use of the Service. If a Subscriber's Service is terminated for any reason, such Subscriber, upon approval by Mojavewifi.com LLC, may enter into a new Agreement and must pay a new setup or activation fee as provided above. Upon the termination of a Subscriber's use of the Service, Mojavewifi.com LLC has the right to immediately delete all data, files and other information stored in or for the Subscriber's account without further notice to the Subscriber.

INSTALLATION

Unless otherwise requested by the Subscriber, the first available installation date will be provided. Any installation date provided to a Subscriber is only an estimate and is in no way a guaranteed installation date. Subscribers understand and agree that circumstances may arise which delay a Subscribers estimated installation date and any such delay will not be considered a breach of this Agreement by Mojavewifi.com LLC. Payment for your initial month's Service (and if applicable: setup fees, installation fees, and Equipment) must be received prior to your turn-on date in order for your setup instructions and IP information to be released to you. If your payment is not received by your turn-on date, you will be responsible for the Service fees even though your IP and setup information has not been provided to you. A Subscriber's computer must be equipped with an Ethernet Network Interface (NIC) card for proper DSL operation and Fixed Wireless Broadband operation. Mojavewifi.com LLC does not include any NIC card as part of the modem package or Fixed Wireless Broadband Access Installation; however it may be installed at the consent of the Subscriber for additional fees as described in Schedule (A) of this agreement. DSL modems, filters, splitters, power adapters, Fixed Wireless Radios, antennas, power injectors, mounting hardware, cabling and other items provided upon installation, remain the property of Mojavewifi.com LLC and must be returned according to this agreement. Additional hardware to meet the minimum system requirements can be purchased from Mojavewifi.com LLC by contacting us if necessary.

SELF-INSTALLATION

DSL: Self-installation allows the Subscriber to install their DSL Equipment. Self-installation is the typical option. This option provides Service to the minimum point of entry ("MPOE") of your phone Service. Your MPOE is normally located outside your building. Inside wiring and inside wiring repair is not included with this option. If inside wiring or inside wiring repair is required, you must contract with your circuit provider or other professional for such work at your own cost. Faulty inside wiring is not grounds for cancellation of your contract. Multi-line phones, phone systems, alarm system or special phone configuration may require a professional installation or special multi-line phone filters.
